SUBJECT: Hockey Canada – Concussion Survey

Hockey Canada takes safety in the game very seriously. Hockey Canada implemented a revised concussion policy in November 2017. In order for Hockey Canada to continue to support the implementation of safe practice around concussion prevention to those that deliver the game it is important that we get the feedback of Members, Minor Hockey Associations, and leagues specific to some of the important safety steps we have taken in the area of concussions. We would ask that you complete the survey linked to below which will assist us in continuing to make our game safe! Deadline for completion is Friday, May 11.
