

INFORMATION BULLETIN

Bulletin No: 18/08

Date: January 29, 2019

To: Member Minor Hockey Associations

SUBJECT: Online Registration Options – TeamSnap

Hockey Alberta is pleased to announce that the TeamSnap and Hockey Canada partnership is now available to all Minor Hockey Associations (MHAs).

Earlier this year, a group of MHAs from across the country piloted a TeamSnap online registration system that is fully integrated with the Hockey Canada Registry (HCR). At this time, Hockey Alberta is prepared to offer this system to all our member MHAs.

TeamSnap streamlines operation of your association and saves 15+ hours of administrative work each week. Through the integration, you'll eliminate double data-entry, and become more efficient by:

- Registering players with TeamSnap and sending the data directly to HCR.
- Creating rosters and pushing team assignments to HCR.
- Simplifying communications, scheduling, payments collection and team management within your MHA.

TeamSnap is planning two webinars starting Tuesday, February 19 for MHAs interested in learning more about the integrated online registration system. More information on dates and times, and instructions on how to sign up for a webinar, will be available soon. You can express your interest in this webinar by completing the form available at the link below:
